WET FISH TRADING INTRODUCTION CATALOGUE

WET FISH TRADING

Wet Fish has been ever present in the UAE since 2004 supplying the very best in fish and seafood items to the Food Service Industry. Our core strength is a quality driven product above all else. Our process ensures the highest standards of preparation, storage, and delivery to our discerning customers. We boast a top -class HACCP certified and Gold approved DM standard facility along with the most efficient of logistical support.

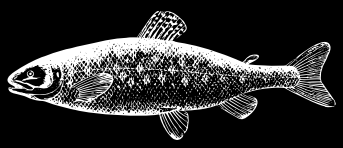
OUR OFFERING

All of our farmed products are sourced with the very highest standards of Aquaculture in mind. We strive for ASC accredited farms and products. The Aquaculture Stewardship Council (ASC), fisheries and ASC Chain of Custody (CoC) standards help companies and organizations to promote and identify farm grown fish as having been responsibly produced. Farmed fish provides flexibility and all year-round availability with relatively stable pricing.



FARMED FISH

SALMON

We source from 3 origins, which gives us scope and flexibility. We chiefly sell Polar Norwegian Salmon, which is farmed in higher latitudes of the country where the sea temperatures are colder and the waters more pristine.

THIS PRODUCES A FIRMER, FITTER FISH WITH A HIGHER YIELDING FILLET.

Both Scottish Salmon and our new addition of Irish Organic are available on request as we continue to explore Chilean fish as an alternative source.

Our normal standard is a D-Trim fillet or an E-Trim should they require skinless.

Our HACCP approved processing factory can produce fillets and portions to any clients specification.

SEA BASS

We source farmed Sea Bass from Turkey, Greece, and Cyprus according to client preference.
Sizes come as follows and are regularly available:
4/600g, 6/800g, 800g/1kg, 1/1.5kg and 1.5/2kg and fillets can be produced from these sizes accordingly along with cleaning of the fish and bespoke specification.
Larger farmed Sea Bass 2/3, 3/4kg and 4/5kg can also be sourced from Turkey who specialise in these larger fish.

Did You know?
Our Sea Bass & Sea Bream as produced aqua-culturally contains nutritional values similar to their wild counterparts because the fish feed is so rich in nutritional values of Omega 3:Omega 6 producing a healthy growth and taste of fish.

SEA BREAM

Farmed along with Sea Bass and from the same countries, sizes range in the same grades up to 1.5kg. Again, whole fish and fillets can be produced and sizes come as follows:
4/600g, 6/800g, 800g/1kg, 1/1.5kg. These sizes are regularly available along with cleaning of the fish and bespoke specification.

HALIBUT

Farmed Halibut has proven to be a great selling “prime” fish in the past decade and is widely appreciated. Farmed in Norway, sizes of whole fish range from 3-5kg through to 7/9kg. Fillets and portion control also available on request.
Wild Halibut is also available on request.

TURBOT

Farmed Turbot has grown rapidly in popularity on menus. Farmed predominately in Spain, we can offer sizes of whole fish ranging from 500/1kg through to between 3 and 4kg per fish.
Fillets and portion control is also available on request as is Wild Turbot.

Meagre – Stone Bass

Also known as Corvina, this is a steadily increasing popular fish with a unique waxy texture. Farmed mostly in Turkey with sizes of whole fish ranging from 2-4kg. Fillets also available on request.

Fjord Reared Sea Trout

As the name implies, these Trout are sea reared in Fjords where they enjoy the strong currents that help to promote strong musculature resulting in a fine eating fish. This is a great versatile alternative to Salmon. Fillets and portions are also available on request.

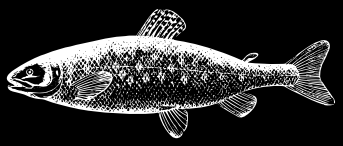
WILD CAUGHT FISH



UK & EU WATERS

Our links with wild fisheries date back over 35 years and during this period, we have developed strong ties with a variety of excellent fish and seafood purveyors. One of the keystones to our sourcing practices is the involvement of the MSC accreditation. The MSC is an international non-profit that describes itself as using a labelling system and fishery certification program to recognize and reward sustainable fishing practices, influencing how people buy seafood and working with partners to make the industry more sustainable.

The need for accountability in today's fisheries has become a prime concern and we continually strive to align ourselves with MSC accredited vendors and products.

Our core product availability includes but is not restricted to:

- Cod whole & fillets
- Plaice whole & fillets
- Dover Sole whole & fillets
- Atlantic Mackerel whole & fillets
- Turbot whole & fillets
- John Dory whole & fillets
- Haddock whole & fillets
- Lemon Sole whole & fillets
- Monkfish tails & cheeks
- Wild caught Sea Bass whole & fillets
- Brill whole & fillets
- Hake whole & fillets

All of the above are seasonably sourced with an emphasis on advising the best buying windows to maximize the quality of the catch.
Shipments arrive twice weekly for daily dispatch.

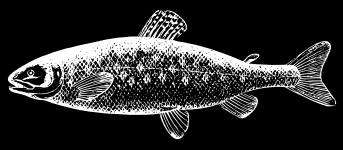
MEDITERRANEAN FISH



An absolute wealth of interesting fish can be sourced from the Med and along the North Atlantic Coast of Africa. Countries like Morocco and Mauritania with their wide coastlines, have ever expanding fishing potential and are creating excellent sourcing opportunities. On top of that, the markets of Athens in Greece and Limassol in Cyprus can literally source, pack and turn exciting new product around in a day.

These “exotic” lines include favourites such as:

- Rascasse
- John Dory
- Squid
- Cuttlefish
- Octopus
- Pagrus
- Alphonsino
- Sardines
- Anchovies
- Red Mullet

DIBBA BAY OYSTERS

We are also a stockist of the Local DIBBA OYSTERS, a truly amazing product both in scope and quality.

Dibba Bay oysters are of the 'Pacific Cupped' oyster variety, and are farmed in the Gulf Of Oman, Dibba, Fujairah and the UAE.

Dibba Bay farm is a 90-minute drive from the Dubai airport and harvesting takes place several times a week, every week, to ensure incredibly fresh oysters are delivered to customers in a regular and reliable fashion.

The Dibba Bay oyster is locally grown with world-class results: they are fresh, meaty and flavourful.
They are available in three sizes depending on your needs and preferences:
No.2, No.3 and No.4 and availability is twice weekly.
